You and your neighbors told us you want...

Sidewalks to make it easier to walk
in the neighborhood

Safe bus boarding areas in
Cherryland so buses can stop

Buses that travel closer to your
home

Better street lighting to help you
feel safer walking in the dark

Slower traffic on busy streets, stop
signs and crosswalks

Bicycle lanes and safe bicycle parking

More information about transit and
transportation programs

Ways to save money using transit
and driving

Buses that run more often, begin
service earlier in the morning, and
operate at night

Other changes to the transpor-
tation system

More transit information? New sidewalks? What would be the best solution for you?

The Metropolitan Transportation Commission (MTC) and the Alameda County Congestion Management Agency are sponsoring a study to find solutions to transportation concerns in your neighborhood.

This is a community plan. The focus of this plan is entirely on transportation issues and solutions that you and your neighbors identify. At the upcoming Open Houses, the transportation alternatives we will share with you are based on ideas we heard from people in your neighborhood, at community meetings and through surveys.

With the help of local agency officials, we evaluated many alternatives. The result is eleven promising solutions that we want to share with you to get your feedback.

You are encouraged to attend the meeting in your neighborhood. Drop by anytime between 5:00 and 7:00 pm.

Ashland and Cherryland, Monday, February 23rd

Participate in the community Open Houses.

What Should I Expect at the Open House?

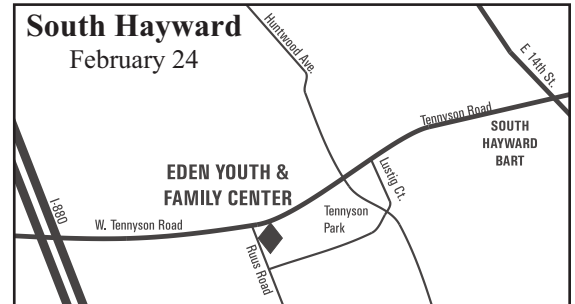

The Open Houses on February 23rd and 24th are an opportunity to:

Learn about the plan findings. Each station presents a part of the study, including the goals of the plan, an overview of community input, transportation concerns, and solutions identified by the community. The Open House will also present evaluations by professional transportation planners.

Talk directly with the project staff about the transportation problems in your community and let us know how you think the Transportation Plan can address them.

Express your opinion about the solutions presented and share your comments about transportation issues.

You may arrive anytime between 5:00 and 7:00 pm, and take as long as you want to examine and discuss the information.
